## EXPERIENCE

### *UI/UX Designer*

Millennium Corporation

Nov 2021 – Oct. 2024

Remote

Created and improved software features for a cybersecurity application suite used in red team operation management as well as contributed to maintaining its design system

Assisted in UI/UX design for a custom built learning management software platform for use in cybersecurity education

### *Front-end Developer*

Steel City Collectibles

May 2016 – Aug. 2019

Pittsburgh, PA

Design lead for the rebuilding of an e-commerce website from initial conceptual design and wire-framing to front-end implementation

Managed online advertising and email marketing campaigns as well as search engine optimization which resulted in a high return on ad spend and an over doubling of monthly recurring revenue

### *UI/UX Designer*

Senitron

Nov. 2013 – Mar 2016

Los Angeles, CA

Designed and developed UI/UX for web application software purchased by American Apparel, Intuitive Surgical, Verizon and others to achieve automated RFID inventory tracking

### *Product Designer*

Chromologic LLC

Sept. 2011 – Oct. 2013

Pasadena, CA

Designed the user interface for a subscription-based software solution used in supply chain security and counterfeit mitigation by NASA's Jet Propulsion Laboratory

## EDUCATION

Front-end development intro courses, UCLA Extension, 2016

Bachelor of Architecture, Pennsylvania State University, 2009
